Systematic Zoology

Published by

The Society of Systematic Zoology

Contents of Volume 25, 1976, Numbers 1–4

Issued 1976, Lawrence, Kansas U.S.A.

NUMBER 1

Cladistic Analysis of Primitive Equids, with Notes on Other Perissodactyls *Bruce J. MacFadden* 1
Evolutionary Relationships in *Macrotus* (Mammalia: Chiroptera): Biochemical Variation and Karyology *Ira F. Greenbaum and Robert J. Baker* 15
Species Density and Taxonomic Diversity of Texas Amphibians and Reptiles *James S. Rogers* 26
A Loss Function Minimization Strategy for Grouping from Dendrograms *L. P. Lefkovitch* 41
Phenetic Variation and Habitat Differences in *Gasterosteus* Populations of the Queen Charlotte Islands *G. E. E. Moodie and T. E. Reimchen* 49
Anolis lizards of the Eastern Caribbean: a Case Study in Evolution. II. Genetic Relationships and Genetic Variation in the *Bimaculatus* Group *George C. Gorman and Y. J. Kim* 62
Points of View
Foraminiferal Biostratigraphy and Evolutionary Models *G. H. Scott* 78
Splitting Well Defined Genera and the Use of Cryptic Characters for Delimiting Genera *Ian Moore* 81
A Computer Routine to Draw Hubbs and Hubbs Graphs Using an Automatic Plotter *James K. Andreasen* 82
Classification and Phylogeny of "Pelmatozoan" Echinoderms *James Sprinkle* 83
Reviews
An Introduction to Numerical Classification • Sex and Evolution • Traité de Zoologie. Anatomie, Systématique, Biologie. Tome VIII. Insectes. Téguments, Système Nerveux, Organes Sensoriels. Fascicule III. • The Mayflies or Ephemeroptera, of Illinois • The Stoneflies, or Plecoptera, of Illinois • Studies in the Philosophy of Biology: Reduction and Related Problems • Perspectives in Zoology 92–100

NUMBER 2

Drifting Spiders or Continents?: Vicariance Biogeography of the Spider Subfamily Laroniinae (Araneae: Gnaphosidae) *Norman I. Platnick* 101
Origin of a Deep-Sea Family, The Ilyarachnidae (Crustacea: Isopoda) *D. Thistle and R. R. Hessler* 110
Intraspecific and Ontogenetic Radular Variation in Opisthobranch Systematics (Mollusca: Gastropoda) *Hans Bertsch* 117
Habitat and Phenetic Variation in *Phymata americana* Melin (Heteroptera: Phymatidae). II. Climate and Temporal Variation in Color Pattern *L. G. Mason* 123
Effect of Changes in Character-Sets upon Within-Group Phenetic Distance *Amy Jean Gilmartin* 129
Statistical Properties of Ratios. I. Empirical Results *William R. Atchley, Charles T. Gaskins, and Dwane Anderson* 137
Modal Blocks in Dentition of West Coast Mammals *J. A. Hartigan* 149
Treatment of Subspecies Approaching Species Status *Dean Amadon and Lester R. Short* 161
The Future of Linnaean Nomenclature *Graham C. D. Griffiths* 168
Are Species Really Individuals? *David L. Hull* 174
Points of View
Is the Species a Class or an Individual? *Ernst Mayr* 192
The Proper Spelling of Taxonomy *Georges Pasteur* 192
An Appropriate Space for Clustering Selected Groups of Western North American *Salmo* *Pierre Legendre* 193
Expected Asymmetry of Phylogenetic Trees *James S. Farris* 196
Are Monotypic Genera Possible? *Norman I. Platnick* 198
Notices
Council Candidates • Zoological Record Indices • New Journal • Erratum 200

NUMBER 3

Biogeography of Corals, Seagrasses, and Mangroves: An Alternative to the Center of Origin Concept — *Earl D. McCoy and Kenneth L. Heck, Jr.* 201

Evolution of Phenotypic Diversity in *Gasterosteus aculeatus* Superspecies on the Pacific Coast of North America — *Michael A. Bell* 211

Biochemical Evidence for Congeneric Competition as a Factor Restricting Gene Flow between Populations of a Darter (Percidae: *Etheostoma*) — *Anthony A. Echelle, Alice F. Echelle, and Barbara A. Taber* 228

The San Francisco Bay Project Identification Manual Series: A New Approach to Invertebrate Keys — *William J. Light* 236

Construction and Use of Tabular Keys: Addendum — *Irwin M. Newell* 243

Similarity of Binary Data — *Cesare Baroni-Urbani and Mauro W. Buser* 251

Congruence between Morphological and Allozyme Data in Evolutionary Inference and Character Evolution — *M. F. Mickevich and Michael S. Johnson* 260

Phylogenetic Classification of Fossils with Recent Species — *James S. Farris* 271

Points of View

Phenetic Evidence of Natural Hybridization — *Frederick W. Schueler and James D. Rising* 283

More Muddles in the Models — *Michael A. Gates* 289

More Muddles in the Models or Compulsive Carping?: More on Vector Spaces — *Jon William Robinson* 291

Concepts of Dispersal in Historical Biogeography — *Norman I. Platnick* 294

Letter 296

Reviews

Evolution and Morphology of the Trilobita, Trilobitoidea and Merostomata, Proceedings of the Oslo Meeting, 1973 • The Comparative Reception of Darwinism 298

NUMBER 4

SYMPOSIUM: ADVANCES IN SYSTEMATICS OF MARINE MAMMALS

Introduction — *Charles A. Repenning* 301

Review of the Oligocene Cetacea — *Frank C. Whitmore, Jr., and Albert E. Sanders* 304

Outline of Eastern North Pacific Fossil Cetacean Assemblages — *Lawrence G. Barnes* 321

Review of Early Sirenia — *R. J. G. Savage* 344

An Ecological Model for Late Tertiary Sirenian Evolution in the North Pacific Ocean — *Daryl P. Domning* 352

Relationship of Pinnipeds to other Carnivores (Mammalia) — *Richard H. Tedford* 363

Adaptive Evolution of Sea Lions and Walruses — *Charles A. Repenning* 375

Geography of Phocid Evolution — *Clayton E. Ray* 391

Paratethyan Seals — *Dan Grigorescu* 407

Fossil Marine Mammals of Oregon — *Clayton E. Ray* 420

Notices

Congressus Theriologicus • Beltsville Symposium • ASZ • Manuscript Reviewers 437

Index to Volume 25 — *Troy Best* 438
